

Amanda Heidemann, MD
Physician and EMR Medical Director
BJC Medical Group

Creating a 21st Century Intelligent
Health System in Missouri

Center for Health Transformation
Better health, lower cost

Key Recommendations

- *Ensure that technology-based initiatives and solutions are designed to enhance the patient-physician relationship*
- *Develop solutions that facilitate and encourage evidence-based preventive care*
- *Create programs that encourage physicians to not only choose interoperable systems but to actively participate in the secure interchange of patient data*
