

David Tamayo

Director, Medicaid Business Strategy
MedImpact Healthcare Systems Inc.

Creating a 21st Century Intelligent
Health System in Missouri

Center for Health Transformation
Better health, lower cost

Key Recommendations

- *Help beneficiaries and recipients of Missouri's HealthNet Program take responsibility for their own health by promoting access to Microsoft® HealthVault™ and WorldDocSM*
- *Reduce or mitigate innovative technology risk by avoiding the “big bang” investment in technology. Instead of the “big bang” investment, implement innovative technology that quickly achieves integration and interoperability in a cost effective, efficiently and predictable manner.*
